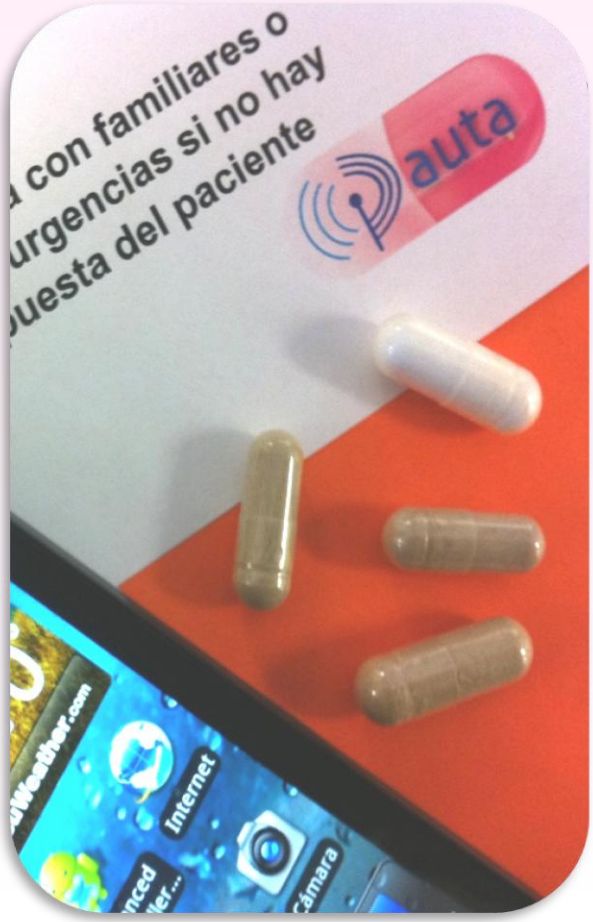
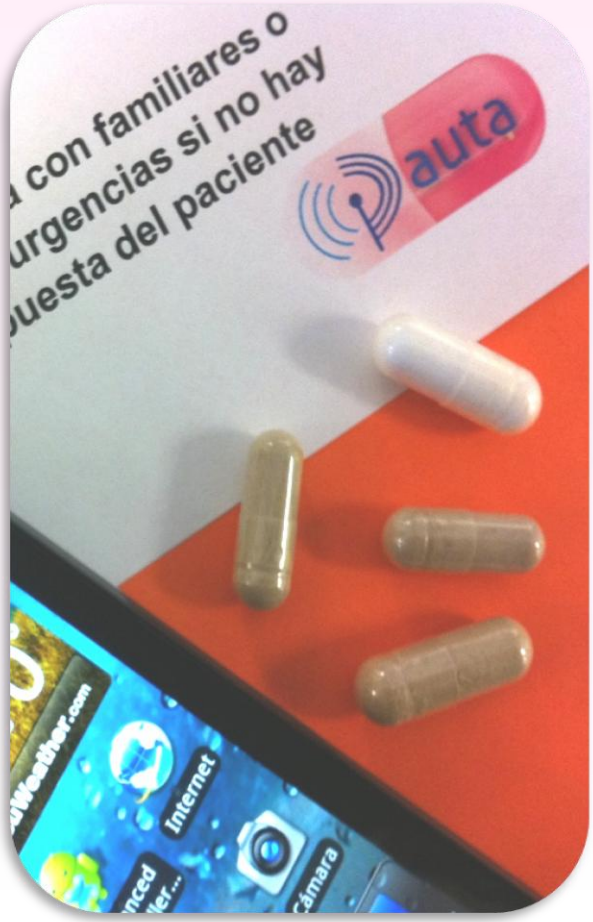
OBJECTIVES



The objective of PAUTA is the design and development of a system with two parts:

- An **EDDD** (Electronic Drugs Dispenser Device) connected to a PDA or a 3G smartphone
- A **software application**

WHAT IS PAUTA FOR?



- PAUTA helps to dispense medicines to **patients with chronic multi-medication** according to the doctor's prescriptions

- PAUTA supports medical staff to **track and monitorize patients** even when they are travelling
